Dear IRT,

Attached is the as-built letter covering Area E of the Petersen Ranch Mitigation Bank for your review and approval. Sarvy, Shannon and Warren we look forward to seeing you on the 12th. Jan, sorry we won't be seeing you but maybe next time!

If you have any questions or if you would like me to overnight you a hard copy of the as-builts please let me know.

Thanks,

Nate

Dear IRT members,

I hope all is well and that you had a great Thanksgiving break.

We are happy to announce that construction at the Munz Dam restoration site in Area E of the Petersen Ranch M.B. is complete and we will be submitting as-builts later this week (See attached 3d model of the before and after condition for a preview). Per the BEI, the release of the construction security and second credit release are dependent on submittal of the as-builts as well as a site visit by the IRT. We would like to schedule a site visit in the next two weeks to show you the completed work and to get the construction security released before the end of the year.

If you are able to attend a site visit the week of December 5th or the week of December 12th please let me know the dates that you are available.

Thanks,

Nate
